RECEIVABLES VS. CLIENTS

NEED FOR LIQUIDITY

RISK REDUCTION

Through their assignment, the company assigns its annual or quarterly VAT receivables to BPER Factor.

In addition to managing these receivables, the company can ask BPER Factor for an advance payment and, with the factoring with recourse service, a guarantee on said payments.

The transfer of receivables to the public administration must take place through a public deed or private agreement authenticated by a notary and communicated through a judicial official (e.g. a bailiff).

Costs

The factoring service has two main expenses (in addition to miscellaneous expenses): an interest rate applied to any advance made and a Factoring commission applied based on the amount of assigned receivables. Its size varies based on the service used (i.e. with or without guarantee), the type of receivables (e.g. sector, payment schedule, deferral length, etc.), the operation amount, and the solvency of the parties involved.
